

SERIES

On the Nature of Interstices

DATE RANGE

2017 - 2023

MEDIUM

Oil paintings on canvas

DESCRIPTION

Narratives from the past. Captured both in her own family album and found photographs, get entwined with threads from the present, revealing how the past and past generations linger in the lacunas and interstices of the now. These paintings search for a visual language that evokes and tells perpetual stories able to transcend the boundaries of the moment documented in the photograph.
